

INSTALLATION GUIDE

DIMENSIONS

PRE-INSTALLATION

Power input is 120-277V. Confirm the source voltage is compatible.

Disconnect power source prior to installation.

SAFETY

Read all instructions before installation.

Do not look directly into light.

Do not submerge in water.

- Product should be installed by a qualified electrician.
- Product should be installed in accordance with these instructions and current electrical codes.
- Not recommended to be installed on the beach and corrosive chemical areas to avoid corrosion and damage.
- Must be installed with CORE Lighting Drivers

INSTALLATION

STEP 1 Insert mounting sleeve into the wall and feed main power cable through the sleeve. (Figure 1)

STEP 2 Connect the main power cable with fixture cable. (Figure 2)
Hide any excess wiring inside of the mounting sleeve.

STEP 3 Align light fixture to mounting sleeve and firmly push into place until you feel the interior clips lock securely. (Figure 3)
